v.

24-CV-377

Justin Thomsen et. al.

LETTER TO THE COURT'S IN REGARDS TO THE
ATTORNEY KIMBERLEY M. MOTLEY AND HER
REPRESENTATION OF ME ON THIS MATTER

Honorable Griesbach,

Today, I, Mr. Hewlett, humbly come to the court to notify all involved parties that Ms. Motley and I had spoken via a attorney call at approximately 9:00am to 9:45 am on today's date of 4-30-2025, and Ms. Motley notified me that she would no longer be representing me in this matter, based upon disagreements amongst us, in reference to the main issue of her's being that I had filed with this court the document number 76 on the docket. And truth be told, Ms. Motley is a great attorney, but she feels that by me filing the afore-mentioned document number 76, that it made her and I appear weak and flimsy to the Defendant's respected counsel, as if our defense is desperate here, and has chosen that she no longer wishes to represent me any longer, and that is her decision, to which I respect in its entirety. Yet I beg to differ on

2 of 4

her belief that it makes my case appear weak, flimsy, and or desperate! For the facts speak for their self, and this case is very strong. She had notified me that Defendant's counsel may potentially view me as a PIOC whom only files lawsuits as a hustle, based on how many lawsuits I have filed. And therefore, if this is the way i'm being viewed by WI D.O.J, than I genuinely feel the need to clear the air, and set the record straight. The law is set in place for a reason, and that is so that order can exist, without chaos running freely. I'm a PIOC, housed in W.C.I, of which is one of the worst prisons in this State, and have had to learn to be a civilized person, and use the laws and rules as they stand. Rules are in place for citizen's, D.O.C - Employees, and PIOC's, and we should all respect these rules. Yet, in the D.O.C, it's a double type of standard, where D.O.C - staff rarely follow the rules, yet enforce rules on PIOC's abundantly, and alot of the time violate the law, and mine and other PIOC's Constitutional Rights. And so I have made a conscious choice to not engage D.O.C - employees with aggression nor physical combat, and have learned to put a pen to paper to fight back against the individuals whom make the conscious choice to break the law, and violate my Rights. And so, the only thing i'm guilty of, is exerting my Constitutional

Rights by law, of which i'm entitled to do. All the D.O.C-
Employees I have sued in this matter, and others have
free will, and the human trait of decision making! These
people choose to do the things that they did, and I have
chosen to exert my rights. Through out my journey
of being an incarcerated Man, I have evolved,
matured, and fallen in love with the law that does
govern our great Nation of the U.S.A.! It's to a point,
that i'm now compassionate about the laws and our
legal system, and have the intentions to wrap up all
the cases that I have compiled right now, so I can
then focus my attention on obtaining my Paralegal Degree
through the correspondence course that is available to
me through Blackstone Institute. I look to people like
Judge Mathis, and attorney Jarrett Adams, of whom both
had criminal convictions, were incarcerated, and now
work with the Judicial system, as my inspiration! My
goals will be achieved, and i'm sure we will all look
back on this stage of my life. I just wanted the
Courts, and Defendants counsel to know that for me,
this is more than money, this is my career choice
upon release from incarceration. This is my life now,
and my future tomorrow. And therefore, I accept
every challenge, and grown to appreciate my win's
and losses, for even when I have lost, to me

it's not really a loss, given I have learned more of the law's that govern us, and so I've won the award of knowledge. And knowledge in the right hands is a very powerful thing, yet knowledge in hands of a fool is nothing. And my Mother raised no fool, as I'm sure we can all concur. I just don't want to be viewed, based upon false preconceptions, and so I had to let all involved here know where I'm at, and what I'm striving for. I'd also like to personally thank Attorney Kimberley Motley, Honorable Griesbach, and any A.R.G.'s of whom I've had the pleasure to engage with in litigation over the years. For through my journey, you've all collectively taken part in teaching me the law in one aspect or another through out my trials and tribulations. And I humbly, and genuinely appreciate all the lessons. Thank you all for your time today.

PS - It is my hope that either Loevy And Loevy Lawfirm, Jeff Scott Olsen, or Nathaniel Cade would take my case on after Ms. Motley contacts them to ask if they are interested in my case, as her and I had discussed today.

 Damien S. Hewlett
